

How to Separate and Dispose of Waste and Recyclables

Waste should be brought to the waste station by 8:30 am on the collection day.

Combustible Waste		kitchen waste (well-drained) vinyl, rubber, leather items disposable diapers plastics products wood branches, fallen leaves styrofoam Remove the contents left in diapers (branches, etc. cut in lengths up to 70cm, & up to 15cm in diameter; tie in bundles up to 30cm in diameter)	<p>Put items to be disposed in Kiryu city-designated waste disposal bags and leave at the waste station.</p> <ul style="list-style-type: none"> ● Items not fitting into 45 liter city-designated waste disposal bags constitute bulky waste and can only be disposed of as bulky waste. ● Each household is limited to 3 bags of waste per collection day. ● In order to insure thorough separation and suitable management of waste at the waste station, please make use of the signature line on the garbage bags. 																	
Noncombustible Waste		umbrellas earthenware, flower pots ceramic shards electric light bulbs glass products cookware hot water thermoses fuel cans, etc. electric products ● Cut off cords from electric appliances at the base of the item, and bundle the cord together with the item. ● Appliances that have used fuel for heating should be treated as bulky waste. razor blades, cutters knives, scissors broken glass BROKEN / SHARP ITEMS: Wrap broken glass, razor blades, knives or scissors in heavy paper and put in city-designated waste disposal bags labeled "きけん" (kiken) in red.																		
RECYCLABLE WASTE DISPOSAL	PET BOTTLES	Remove caps & labels. Rinse & crush. Bag caps separately in city-designated bags.	<p>Paper items are collected on rainy days as well.</p> <p>Please do not dispose of paper items in designated waste bags or cardboard boxes.</p> <p>Collection of old clothing and cloth</p> <p>Please use the no-fee collection boxes established at some community centers (kominkans) or supermarkets etcetera to bring in old clothing or cloth. Please see the city's website for further details about the no-fee collection boxes.</p> <p>Recovery of waste edible oil</p> <p>Recycling of waste edible oil (vegetable only) is carried out at the city hall, both branch offices and public halls on the first Wednesday of every month (the second Wednesday of January and May) on the morning. Please put oil in containers such as plastic bottles.</p> <ul style="list-style-type: none"> ● Returnable bottles are reused as is. Therefore, please don't put them in a bag, but instead take them directly to the waste collection station. ● As they are non-combustible, you can also take them (excluding notebook computers) to the waste station. ● Insert these items into the collection box at city hall, branch offices in Niisato & Kurohono or any kominkan. ● As well, the information booth at city hall, each branch office and each community center is always accepting them. ● Dispose of them on public clean-up days in Spring and Fall at the waste station. 																	
	CAPS	● Collect caps in any convenient bag and dispose together with PET bottles in designated waste bags. ● Labels are combustible waste. ● Includes transparent drink, alcohol, soy sauce, etc. bottles. Does not include colored PET bottles which should be disposed of with combustible waste.																		
	WHITE TRAYS	● Wash and dry. ● White Styrofoam trays for food. Does not include non-white trays which should be disposed of with combustible waste. [How to recognize] Styrofoam trays can be broken easily by making noise.																		
	PAPER	INCLUDES: milk, juice, coffee & tea cartons, 500 ml & over without aluminum lining. CARTONS NEWSPAPERS CARDBOARD MAGAZINES ● Wash, open up and let paper cartons dry. ● Include newspaper advertising with newspapers. ● Fold cardboard and secure it in such a way that it doesn't open up again. ● Separate by category & bundle for disposal. Collapse boxes before bundling.																		
	FLUORESCENT LIGHT BULBS	annular shape straight tube up to 1.2m in length ● When changing fluorescents, put the used ones in the empty boxes of the new lights for disposal. ● Bundle and tie the straight tube bulbs together with string. ● Wrap broken fluorescent lights in paper labeled "きけん" (kiken) in red and dispose with noncombustible waste. ● Put electric light bulbs and LED tubes out on Noncombustible waste day.																		
	AEROSOL CANS & GAS CASSETTES	AEROSOL CANS GAS CASSETTES CAMPING FUEL ● Because it will cause a fire accident of the collecting car, please use it after running out the contents.																		
	CANS	juice, beer [How to recognize] candy cans canned goods, etc tea ● Remove caps. ● Dispose of metal caps with noncombustible waste. ● Plastic caps with combustible waste. ● Empty and rinse all cans and bottles.																		
	BOTTLES (GLASS)	various bottles cosmetic bottles broken bottles ● Wrap broken bottles in paper labeled "きけん" (kiken) in red. 1.8 liter (except oil) beer bottles "Jun" & "Legend" green & brown color clear glass (720ml) ● The other bottles should be thrown out on the Bottles waste day as "various bottles" above.																		
	SMALL WASTE ELECTRICAL & ELECTRONIC EQUIPMENT	cell-phone digital camera video camera [target items] cell-phones, digital cameras, video cameras, handheld game machines, electronic dictionaries, calculators, telephones, mobile music players, remote controls, notebook computers bearing the PC recycle mark, tablet devices, portable car navigation systems, wall adapters																		
	DRY CELL BATTERIES	Dry cell batteries ● Take button batteries and rechargeable batteries (battery pack, etc) to merchant recycling bins.																		
DANGEROUS ARTICLE	lighters ● There have been instances of explosions and fires within the garbage collection vehicles. Disposable lighters (fuel emptied)

Contract with an industrial waste treatment company. Businesses must, as their own responsibility, properly dispose of waste created during the course of their business activities. Contract with a specialist. Please look at the reverse side. Inquire about disposal from your medical practitioner.																	

Garbage that can be put out except for garbage stations

Separate properly, it is convenient to put out at the time of convenience if it is between the date and time of collection · opening time. Also, at nearby supermarkets and electronics stores, there are stores that have their own recycling collection boxes, please use by all means.

What can be taken out for group collection

Group collections are those times when people that live in the same area decide on a time and place for each household to collect recyclable resources to turn over to a collections contractor.

Group collections, along with the ability to use resources practically and reduce waste, are linked to the promotion of community activities of local citizens.

Please inquire for a detailed collecting items list.

For Inquiries (excluding Saturdays, Sundays and holidays)

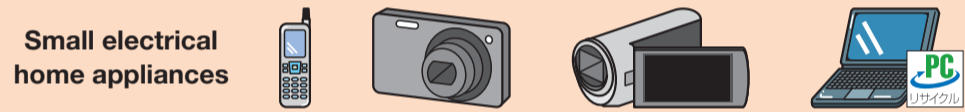

Environmental Division, Waste Reduction Section Phone: 0277-46-1111

Items collected at collection points (public facilities)

Please put your waste into the drop-off spots or the collection boxes found near the City Hall Information Desk (other than newspapers or aluminum cans), in every branch office and in every community center (kominkan).

I usually collect batteries and lighters that I can not put out to the garbage station usually.

For small electrical home appliances, Kiryu city is collecting from the following list of goods.

cellphones, digital cameras, video cameras, handheld game machines, electronic dictionaries, calculators, telephones, mobile music players, remote controls, notebook computers bearing the PC recycle mark, tablet devices, portable car navigation systems, power supply adaptors.

Disposing of air conditioners, TVs, refrigerators / freezers, washers / dryers

According to the Home Appliance Recycling Law, the Kiryu City Waste Treatment Center is not permitted to collect air conditioners, TVs (cathode-ray tube type, LCD type, plasma type), refrigerators, freezers, washers / dryers as bulky waste. Also do not deliver these items directly to the Waste Treatment Center.

The following describes how to dispose these items:

Contact a retailer

When requesting an item to be collected, the retailer from which the item was originally purchased or the retailer through which you are purchasing a new item will charge a recycling and collection fee.

Take the item to be disposed of directly

Confirm the name of the item's manufacturer and model, and then remit the recycling fee through a post office. Take the recycling coupon along with the item to be disposed of to a specified collection agent.

Designated Recycling Businesses

- Fujita Shoten Corp.: 7-1813-57 Sakainocho, Kiryu City Phone: 0277-43-5283
- Sankyo Unso Corp., Yabuzuka Warehouse: 2260 Obaracho, Ota City Phone: 0277-78-7559

About non-takeover obligation

When discharging air conditioner, TV, refrigerator · freezer, washing machine · clothes dryer, please contact the Kiryu City Cleaning Center if it falls under the following cases.

- Retailers purchased in the past are out of business and can not request collection.
- Because of what we got or gifts, we do not know which retailer we purchased and can not request collection.
- Because of the move, purchasing and retailers are far away, it is practically difficult to request collection.

How to dispose of personal computers & display monitors

According to the Promotion of the Effective Utilization of Resources Law, household-use personal computers and display monitors cannot be discarded as bulky waste. Do not deliver these items directly to the Waste Treatment Center.

Disposal Methods

Name-Brand Computers

The manufacturer has the obligation to collect and recycle. Please contact the collection center recorded in the instruction manual provided when the product was purchased and request pick-up. If the collection center information is unknown, please contact the PC3R Promotion Association.

Homemade computers

Homemade computers or computers for which there are no manufacturers to receive them for recycling can be sent to the "Pasokon 3R Suishin Kyokai" (Personal Computer 3R Promotion Asso.) which charges for collecting and recycling them. Please contact the PC3R Promotion Asso. for recycling fees. Do not dismantle or disassemble the products before inquiring with the PC3R Promotion Association.

Kiryu City Waste Treatment Center

Kiryu City Waste Treatment Center processes waste from Kiryu & Midori cities and the Akabori district of Isesaki. Please consult with them about anything you are unclear about should you wish to bring waste there directly.

Waste Reception Hours

Waste can be brought in from Monday to Friday (excluding holidays), and the last Sunday of every month (excluding December) from 8:30am until 4:45pm every day.

Only local municipalities or businesses contracted by local municipalities can dispose of waste at the Waste Treatment Center on holidays. Private individuals and approved businesses cannot dispose of waste at the center on these days.

The Waste Treatment Center is open for deliveries until Dec. 30. The center will open again from Jan. 4.

Important Points for Consideration

Waste is to be unloaded by the owner. Waste brought to the center should be separated in the same manner as waste disposed of at waste collection stations. Please drop off waste at designated spots indicated by the staff at the Waste Treatment Center. We kindly request that you bring any waste that we can't be processed at the center back home with you.

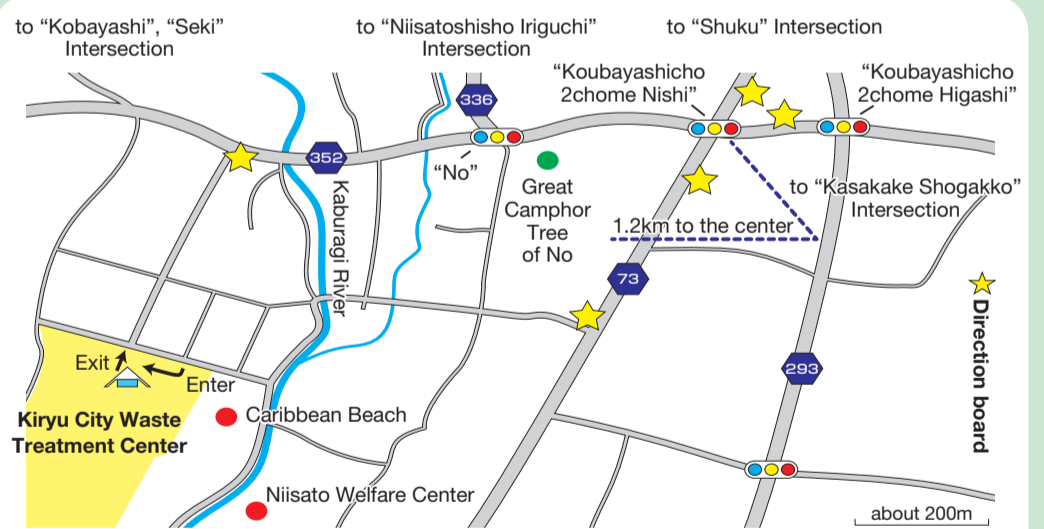

Bringing in from industrial waste and garbage disposal area is strictly prohibited.

Fees for Bringing in Waste

Within 100 kg: 120 yen / 10 kg. Over 100 kg: 200 yen / 10 kg for the entire amount. Rates for disposal of deceased pets: 510 yen per dog, 200 yen per cat.

Consultation about directly bringing in waste

Kiryu City Waste Treatment Center: 461 No, Niisatocho, Kiryu City Phone: 0277-74-1010

The way to the Kiryu City Waste Treatment Center

- Take right at the intersection of "Kasakake Shogakko" on Route 50 from the direction of former Kiryu City and follow the road for 4km.
- 5.5km west from the intersection of "Omamacho 6 chome" in Midori City on Route 122.
- 1.4km west from the intersection of "Moromachi" in Midori City. 3.5km south from the "Shuku" in Niisatocho, Kiryu City.

When using a car navigation system, search for "Caribbean Beach" which is next to the center. When coming to the center, please make sure to do your calculations using the scale (available in the building with the white triangular roof).

Do not permit illegal dumping or removal of resources!

When you discover illegal dumping that seems to impact on environmental conservation or the taking away of resources (newspapers etcetera) from waste stations, please report the time, place, vehicle license plate number and any other information to the Waste Treatment Center. We will use this important information when we are patrolling. In order to protect Kiryu city's abundant nature and living environment, we ask for cooperation from every citizen in the city.
